

Maxwell

The "Wonder Car"

The Powerful Motor of the Maxwell

This is one of the most marvelous pieces of machinery ever invented. Very powerful with four cylinders cast en bloc it has made the Maxwell famous as "The Car that Laughs at Hills."

Best of all this motor is breaking all low cost records for:

- 1st—Miles per gallon of gasoline.
- 2nd—Miles per quart of lubricating oil.
- 3rd—Lowest year-in-and-year-out repair bills.

We are waiting to take you for a test ride in the car that has broken all low "First-Cost" records, and is breaking all low "After-Cost" records.

ARABIAN HORSES.

Ancient Stories of Their Care and Training Are Mere Fables.

So far as we know, the Arabian breeders have no patented system of training their horses different from those prevailing among peoples of a similar degree of civilization. Naturally the lack of pasture results in young Arabian horses being fed a considerable quantity of barley and, so the story goes at least, a not inconsiderable quantity of the fruit of the date palm, fresh and dried, by way of succulence.

The colts are broken, usually bare-backed, at two or three years old. Their subsequent handling is much like that of all other horses, with perhaps the difference that as early in life as possible the young animals are accustomed to doing without water for increasing periods of time in order to accustom them later on to the scarcity of liquids in desert journeys.

The ancient stories about the Arab steed being kissed and bowed over by the sheik's whole family, kept in the living tent and fanned on the best silk rugs are picturesque fables containing about the same measure of truth as the one which dates the pedigrees of Arabian horses back to the mares owned in Biblical times by King Solomon.—Breeder's Gazette.

THEY SAW THE GHOST.

Easy to Recognize the Woman Who Had Haunted the Place.

"A certain lady and her family," says Sir Mountstuart Grant-Duff in his "Diary," "hired a place in Scotland which was haunted by the ghost of a woman, who was to be seen constantly at night wandering through the rooms and passages. When the family arrived the lady was much struck with the place and said, 'I must have been here before, for I know this place so well, only there ought to be two rooms here, and there is only one.'"

"The agent replied that within a few weeks the owner had caused a partition to be taken down and made the two rooms into one. Still the lady was puzzled at her knowledge of the place till she remembered that it was a house she used to go to in her dreams. "Well, some time passed, and the agent was up at the house again, when the lady complained that one part of the contract had not been fulfilled. They had hired a house and a ghost for the summer, and no ghost had been seen."

"The agent replied: 'Of course not, because you, madam, are the ghost. We recognized you the moment we saw you.'"

The Fate of the Oneida.

One of the most extraordinary catastrophes that have befallen vessels of the United States destroyed the ship of war Oneida in 1888. She was bound homeward with a jolly ship's company eager to see wives and sweethearts and native land once more, when not far out of port she was struck by the British steamer Bombay coming in. The stem of the Bombay cut off the stern of the Oneida. The ship was sinking rapidly, and guns of distress were immediately fired, but the bay steamed on her way and left the vessel to her doom. She went down, and all but one or two of her crew were drowned. The captain of the Bombay gave no other reason for his conduct than that he had Lady Eyre, the wife of a distinguished British sardar, on board and did not wish to disturb her nerves with scenes of shipwreck. He was mobbed when he reached Yokohama, dismissed from the service, socially tabooed from that time on and died in disgrace a year or two later.

The Obstacles to Evil.

In the constitution of our nature a limit has been fixed to the triumph of evil. Falsity in theory is everywhere confronted by the facts which present themselves to every man's observation. A lie has no power to change the ordinances of God. Every day discloses its utter worthlessness until it fades away from our recollection and is numbered among the things that were. The indissoluble connection which our Creator has established between vice and misery tends also continually to arrest the progress of evil and to render odious whatever would render evil attractive.—Francis Wayland.

Frigga.

Frigga, from whom Friday is derived, was either a god or a goddess, according to time and country. As a man he was a great hunter and warrior, always represented with a drawn sword in one hand and a bow in the other. In the Scandinavian countries Frigga was called the "Venus of the North," and the sixth day of the week was consecrated to her worship.—London Mail.

A Shade of Doubt.

"What do you think of my graduation essay?" asked the young man. "Fine!" replied his father. "Only I'm afraid a lot of people are going to be bashful about offering plain wages to a man whose intellect is so much above the average."—Washington Star.

For Nature Students.

The young author, reading a fake animal story to the attentive editor, said: "Whereupon the woodchuck laughed softly to himself." "Ah," remarked the editor, "I suppose he indulged in a woodchuckle!"—Chicago News.

Youth comes but once in a lifetime; therefore let us so enjoy it as to be still young when we are old.—Longfellow.

To Drive Out Malaria.

And Build Up The System. Take the Old Standard GROVE'S TASTELESS CHILL TONIC. You know what you are taking, as the formula is printed on every label, showing it is Quinine and Iron in a tasteless form. The Quinine drives out malaria, the Iron builds up the system. 50 cents.

India's Aluminum Wealth.

India offers a great field for future supplies of aluminum. There are great deposits of laterite and bauxite from which aluminum is derived. It is said that the Indian product could be placed on the market at a figure but little more than half that of the present quotation. The use of this metal is handicapped by the cost at present, and if the metal could be secured at a lower cost its field of usefulness would be greatly expanded. There are many comparatively accessible points where factories for the extraction of aluminum could be located.

Now Well

"Thedford's Black-Draught is the best all-round medicine I ever used," writes J. A. Steelman, of Pattonville, Texas. "I suffered terribly with liver troubles, and could get no relief. The doctors said I had consumption. I could not work at all. Finally I tried

THEDFORD'S BLACK-DRAUGHT

and to my surprise, I got better, and am to-day as well as any man." Thedford's Black-Draught is a general, cathartic, vegetable liver medicine, that has been regulating irregularities of the liver, stomach and bowels, for over 70 years. Get a package today. Insist on the genuine—Thedford's. E-70

Russian's Prayer for His Horse. The Russians are in the habit of using the following prayer for their horses before going into action: "And for these also, O Lord, the humble beasts who with us bear the burden and heat of the day, and offer their guileless lives for the well-being of their countries, we supplicate thy great tenderness of heart, for thou hast promised to save both man and beast, and great is thy loving kindness, O Master, Saviour of the world. Lord have mercy." Those also who have traveled over some of the wide spaces of Russia and Siberia will appreciate the simple trust shown in it for Russians have often to face dangers alone on horseback in their great country even in times of peace.—Country Life.

The Quinine That Does Not Affect The Head Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness or ringing in head. Remember the full name and look for the signature of E. W. GROVE, 25c.

Secret of His Success.

His character was good, his references were excellent and his ability was undoubted. He was a first favorite for the position. "And now," said his future employer, "would you mind telling me your politics? It won't make any difference to me, really, what side you support, only for the smooth working of my business I find it necessary often to know the political complexion of some of my employees." A hard look came into the candidate's eyes. "Politics?" he said, "what are my politics? The question can be very easily and briefly answered. I'm against politics." He was engaged forthwith.

THE CHARM OF MOTHERHOOD

Enhanced By Perfect Physical Health.

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Whenever You Need a General Tonic Take Grove's

The Old Standard Grove's Tasteless Chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

Cities With Nine Lives.

The teaching of history is that a city is hard to kill. For instance London has been decimated five times by plagues, in addition to visitations of typhus, cholera and other epidemics. She has been burned more or less several times. Paris has gone through eight sieges, ten famines, two plagues and one fire which devastated it. Rome has been swept by pestilence no fewer than ten times. She has been twice burned and six times driven to submission by starvation. Constantinople has been burned out nine times and has suffered from four plagues and five sieges.

Southern Railway New Trade Mark.

The Southern Railway Company has adopted a new and attractive trade mark as shown above. The design "SR" is symbolic to the name of the road and the wording "The Southern Serves the South" is suggestive of the many lines operated by the Southern Railway throughout all of the states south of the Ohio and Potomac and east of the Mississippi rivers.

There is hardly a city or town of importance throughout the entire south that is not connected with the balance of the south, either directly by the Southern Railway's own trains or by sleeping car lines over other roads in connection with Southern Railway, via some adjacent junction point. On this account the title "The Southern Serves the South" was adopted as being appropriate.

Southern Railway spends about \$200,000,000 a year in advertising and a great deal of this advertising is done in the Northern, Eastern and Western sections of the country so as to attract people into the South, and on all of this advertising matter this trade mark will appear hereafter.
